

It has been a bit quiet over the winter months but since our first newsletter we have held two work sessions.

The first one last September saw a new roof on top of the Coronation hut and less mess inside as all the tents and related equipment were checked, matched up into useful sets and anything not usable was discarded - either to rubbish or to the bonfire area. Some other ground and garden tidying was done. We then enjoyed a relaxing barbecue and chat.

In cold March this year a few very brave Friends did a bit more work in the Coronation Hut, tidying/sorting, and measuring up for some additional stronger shelving to store the tent equipment and new lights.

Those who had volunteered to burn some of the rubbish probably got the better deal, smoky but much warmer!

...and we tidied the rubbish area from this ..to this!

Hopefully our visitors will begin to see the effects of this work and will enjoy the equipment we hope to purchase over the coming months. There is already an all weather table tennis table on site and some Divisions have offered financial support for the new fitness trail so that when we have confirmed and prepared the designated area we can go ahead with setting this up.

Your membership helps raise funds for this and we hope you will continue to support Friends of Heyswood.

Family Fun day 7th July - Friends of Heyswood are cooking the barbecue - can you help between 12 and 3 pm.

Our next work afternoon will be September 8th from 2 pm with barbecue at 5 pm. Come along and help and have fun!

*Don't forget - your membership is now due for 2013.*
